SIR,

I have the honor to forward herewith Copies of marginally noted correspondence, re the Revision of the Bangalore City Police Force.

2. In the year 1890 the strength of the Police stood at 1 Inspector, 2 Chief Constables, 4 Head Constables, 25 Sergeants and 117 Constables, with a population of eighty thousand inhabitants and an area of 8 square miles under its charge. It is well known that after that date the City of Bangalore has increased very considerably both in area and population, so that the Police have now to look after an area of nearly 12 miles and a population of nearly ninety five thousand inhabitants. These figures in themselves do not convey an adequate idea of the increase in Police responsibility, for the city has increased vastly in industrial and commercial importance also. There has, however, been no corresponding increase to the strength

of the Police Force. 4 Head Constables and 32 Constables were sanctioned in 1892, 1 Head Constable, 1 Sergeant and 6 Constables for the Chamraj extension in 1893, and another Force for a special purpose, viz for preventing the pollution of Miller's Tank &c. in 1895.

Please see Pro (3) in links file.

3. The figures given in the margin show the proportion of Police to population in 1892 and 1896.

Bangalore city.
93. 1 Policeman to 327 population
96. 1 do — to 360 — do.

4. The proposals submitted by the Deputy Commissioner of Bangalo referred to in para 1 provide for an increase of 1 Chief Constable, 2 Head Constables, 5 Sergeants and 45 Constables at a monthly cost of Rs. 575 or Rs. 6912 per annum. The statement of present and proposed distribution of the Force herewith submitted will show at a glance ho the increase is proposed to be distributed over the various stations and Sub-stations.

5. I would here note that the chief item of increase is for the Chamraj extension which, as the Deputy Commissioner remarks, has becom a town in itself and there is every likelihood of its further extending up Dod Basavanna's temple within the next year or two. It is proposed t locate at this station 1 Chief Constable, 1 Head Constable, 2 Sergeants and 28 Constables in the place of the meagre allotment noted in par 2 now available for the work. It is also proposed to open two new out posts to b converted hereafter into stations for the northern extension and the Mysore Road Extension with a force of 1 Head Constable, 2 Sergeants and 6 Constable and 1 Head Constable, 1 Sergeant and 6 Constables respectively. The former would include all buildings opposite the Race Course and the Silledar Lines up to the Cotton Mills on the Bellary Road. The latter would embrace all ... buildings and roads up to the Tile Factory on the Mysore Road including t Oil Mills, Burke's Workshop and many substantial houses occupied by European and other settlers. These parts of the city are growing ones

and the industries carried on therein collect bad Characters. The proposed stations are therefore urgently required. It is also intended to open an out post with 1 Sergeant and 6 Constables near the Lal Bagh. The other increases and decreases noted in the statement are small and call for no remark. It will be seen that it is proposed to divide the whole City into three Divisions in the place of two now existing, each under a Chief Constable.

6. A proposition statement showing the details of the increase is herewith submitted. The total Police Force for the city including the present strength and proposed increase will be 1 Inspector, 3 Chief Constables, 12 Head Constables, 33 Sergeants and 270 Constables.

7. The proposals have been carefully prepared and the increase applied for is just what will suffice for the efficient discharge by the Police of their responsible duties in protecting the lives and property of an increasing population and safeguarding the interests of a progressive city. I solicit early sanction to the proposals herewith submitted.

I have the honor to be,

To

The Inspector General of Police
in Mysore.

Sir,

I have the honor to advert to Correspondence ending with your docket No. 1309/102 dated 14th inst. regarding the revision of the Bangalore City Police Force.

2. The previous papers were retained by Mr. Devaraja Urs, the permanent Superintendent of Police, to was intimated in the monthly lists of unanswered References, and were received from him about the 2nd week of this month. His locum tenens, Mr. Ballard, has carefully gone through the subject; and his proposals are embodied in the accompanying Copy of his memo dated 26th inst.

3. You are aware of the rapid expansion of the City on all sides since 1891. A small addition was sanctioned in December 1893 for the Chamarajapété or Western Extension, but this quarter has grown and is still growing beyond the Capacity of the Police force allotted therefor. The Western Extension is in itself a town, extending on the south to Gavipoor and Guttahalli, on the West to the Madigar Palya, on the east to the Fort Walls and on the north to the Mysore Road. It shows every sign of filling all the wide tract; and although much of the outcry about increase of Crime and want of protection lately raised in some quarters must to be held to be exaggerated it must be admitted that the Police force available to safeguard this portion of the City is wholly inadequate for the work. I have lately had it strengthened by depletion elsewhere, but it is at best

not only a makeshift and must result in weakness in other directions.

4. It must be also borne in mind that the further extension of this quarter up to Dodda-Basavanna's temple is within the practical politics of the immediate future, and I should not be surprised if it blossoms within the next year or two into the heaviest Police Charge.

5. The Northern extension, the unlimited house buildings along the Mysore and Tumkur Roads, in rear of the Arlapeth and at the back of the Kengeri Gate station, and also along the Magadi Road demand Corresponding provisions for Police protection.

6. I am therefore of opinion that the propositions of Mr. Ballard in the accompanying memo do not err on the side of extravagance and I beg that you will be so good as to obtain the sanction of Government for the same.

7. When the extra establishment is sanctioned, it will be time enough to select picked men for the superior posts.

8. A separate reference will be made regarding (1) the additions required for the District Police and (2) the station and Sub-Station required for the several extensions of the City.

I have the honor to be,

To.

The Deputy Commissioner, Bangalore.

N. 468/112

Dated 7th November 1896.

His No. 148 dated 28th October regarding increase of Police to the Bangalore City.

In reply, has the honor to state that the Superintendant proposes to have.

1 Chief Constable
1 Head Constable
2 Sergeants and 34 men for the Chamaraj Extension.

The Strength already sanctioned for it is.

1 Head Constable
1 Sergeant &
6 Constables.

It is not Clear whether the number above referred to is the total Strength wanted, including the present Force or in addition to the present Strength. It looks as if it were the former but the total, the strength now obtaining has not been deducted.

2. For the Northern Extension &c

2 Head Constables
3 Sergeants and
12 Constables are asked for.

They will be posted, it is said, to the Kengeri and High Ground Stations. It is not Clear how two Head Constables are to be attached to

to each Station.

3. If the present Strength at the Chamarajapet Station is not to be deducted, the total additional strength required would be-

1 Chief Constable
3 Head Constables
5 Sergeants and
46 men.

If it is to be deducted,

1 Chief Constable
2 Head Constables.
4 Sergeants &
40 men will be wanted. The Deputy Commissioner actually asks for

1 Chief Constable
2 Head Constables
5 Sergeants and 45 men.

It is not clear how this Calculation is arrived at.

4. The Superintendent states that the additional strength sanctioned for Coopparahally Viz.

1. Head Constable
2. Sergeants and
10 Constables will be absorbed for the Chamaraj Extension. It is not Clear whether the whole or what part of this is to be absorbed. Nothing is deducted in the total on this account.

5. If the whole additional strength asked for is wanted, it may be intended to redistribute the men at the different Stations. A Complete Statement shewing the present and proposed Scale for each station may be Submitted with reasons for each increase. The increase Sanctioned after 1890 may also be noted, as also the increase

in

Encl Calcutta

I have to apologize for the delay in the non-submission of this memo earlier, the same having been delayed for the collection of information from various sources.

The present proposition is for an increase to the Bangalore City by

1 Chief Constable
2 Head Constables
5 Sergeants
245 Men

at a cost of Rs 5361. per mensem and Rs 6432 yearly.

This increase is proposed

Upto the Tramway
Extension, Northern Extension
from her Desa Raj Mrs
House near the Race Course
Stand, the Killedars Lines
up to the S. M. R. & M. R. C.
Railway fences and the
Extension in the vicinity of
the Bangalore Cotton
Mills on the branch connecting
the Mysore Road.

It is also proposed in this
rearrangement to convert the
7 City Stations into 3 blocks
and put each of them in
charge of a Chief Constable.

High ground - Yellahanka
and Ulsoor 2 or 1 block with
an European Chief Constable.

Central - Kengeri and
Obarpet no 2 block with
a Native Chief Constable

Klaspalyam - Fort and
Bhamaraj no 3 block with
a Native Chief Constable.

I Submit with these 2
Statements.

Statement No I gives the
strengths in 1890 - the increases
made subsequently from
1892 to 1895 and the extra
strength now proposed.

Statement No II gives the
grades in which the extra
Police is asked for and their
cost per Mensem & per annum

The Sketch is that

Wall of the Chamarajendra Extension. It gives at a glance its area and extension since 1890. All the petas marked out in that year have not only been built but occupied. The sketch also shows how this extension has been intersected by roads.

The sheds now existing in old Durgapet are already being removed and shifted out in the new Durgapet and when once all the existing sheds will take all the time of the Police to keep this important quarter in order.

The buildings shown in the sketch are inhabited by

by all the most important,
wealthy & influential
residents of Bangalore
most of whom had contemplated
in 1890 to desert the Pettah
to the Cheama Raj Extension
in consequence of its elevated
locality and healthy surroundings.

In the sketch is shown
the villages of Gavipur -
Guttahally & Sunkenhally,
the Kempambudhi Tank
and the Madegir Village -

on the Mysore Road and
at Gavipur we have
two outposts - and in the
Cheama Raj Extension at
present in a small shed
we have 1 Head Constable

and 6 men -

146

The outpost on the Mysore Road was I believe originally intended as a Station for the Chamaraj Extension, but this has now to be abandoned and made into an outpost in consequence of the direction the Chamaraj Extension has been devoted to.

In the present application for extra Police it is proposed to absorb the increase sanctioned by Government in their Proceedings No: 9573-4 of 1823 17.11.93 for the Chamaraj Extension and No: 3747-8 no 589 of 16.5.95 for

for that of Poopatrahally
and the two outposts
of Saviour and Nuggur
Road and give the
Bhamaraj Extension
1 Chief Constable (who
will be in charge of the Fort
and Kasbah Lagam as well)
1 Head Constable 2 Sergeants
and 34 men.

. . The Bhamaraj Extension
to be divided into 4 Beats
by day and 5 by night.
with 4 men for day and
night Sentries. 1 Station
House writer and 5 Beat
Posters - and 6 Constables
for the 3 outposts of

of Kanjipuram, Kembambadhi

Tank and the one over the

Mepore Road.

The necessity for this

increase will be apparent

when it is considered

the progress this Municipality

& Division has made

within the last few years

and the facilities opened

out to the criminal classes

when they find an area

left without proper

watch by Police.

Complaints are already

very rife of thefts and

of children despoiled

of

of their arrangements

of which there has been

a late instance and of

Ladies being insulted

when they visit the

Kempambudhi Tank

for benefices of ablution &c

For the Northern Division

by the Race Course

and for the Extension

at the back of Kenguru

Station I propose to

have 2 Head Constables

3 Serjeants and 12 men

In the Northern Division

we have all the Head-

of Departments residing

in very imposing ~~on~~
structures open to attacks
of the cute criminal.

Further on we have
the Silladar lines - quarters
for their families -
Richies foundry and
the Cotton Mills just
a little out of municipal
limits -
the two latter of which
attract most of the
roughs of Bangalore
for work - and further
up we have several
sites now occupied by
respectable Brahmin
families. and which

which promise [illegible] to be a very promising quarter.

In the Kangoo section we have the Woollen mills. the Brick and Tile Factory, the oil mills and Burkes Workshop and very many substantial Houses occupied by European and other Settlers. for which with the northern & Eastern I have proposed the above strengths. the strengths being equally divided and to be attached to

to the High ground
and Kengere St
for purposes of work.

Crime to my Knowledge
for the few months that
I have been in charge
has been so ripe in
the City that the necessity
for the immediate increase
to the strength calls for
the strongest support
of the Deputy Commissioner
and I beg that this
will have his Kind
attention early.

For the Chief Constable
& Division two pts have

been selected for a
Police Station and two
sites for the Police Lines
both to be on the new Type.

The Sites inspected by
the Deputy Commissioner
with the undersigned
appears to me to have
the advantage of gaining
a good view of the
whole Chamaraj Mohalla
right up to the Kempam-
budhi Tank and on
the main road - and
with buildings of the new
Type will improve the
Chamaraj Mohalla
considerably. These sites

sites can be acquired
under the Land Requisition
Act- at very small cost.

—

The three sites for the
Police station on the
road leading to Mr.
Puttanna Chetty's new
Bungalow has only the
advantage of being
Centrally situated when
the grounds marked 5
are taken up and built.

A plan for a Police
station with a neat
Watch tower as an
overlook is being prepared

In conclusion I would suggest the appointment of two very intelligent Officers for the post of Chief and Head Constableships for the Chamoli Raj & Lansdown. The Chief must be a Brahmin to admit of his entrance into High Caste Houses for inspection of localities and the other either a Hindu or a Muhammedan.

Heads may be selected from the Students of the Training School and I

shall be glad to give
them the training necessary
for this work - of whom
I would recommend
the following :-

For the Chief Constable
Ships V. M. Ramachandra
Rao who was in charge
of Cooparbet and who
proceeded to Madras
for a training in
Anthropometry at Madras
under the Assistant
Inspector General of Police.

For the Head Constable
- Ships 1st class Sapadan
Nomesaney of the Bangalore

Bangalore Kasaba

Station and 2nd Class

Serjeant Mahamed Beg

a passed Candidate

in the English Branch

and who was promised

advancement by

Mr. Devaraj Urs - an

intelligent Police Officer

and who has worked

well.

distribution.

3. Columns 9 and 10 indicate the growth
of the City since the extensions were starte
In the Census of 1891, the population of the
City was 80,285 Souls, it is now estimated as
95,165 or an increment in round numbers of

of 15,000 Souls; which is by itself above the Population of several District Head Quarters in the Province.

4. The increases now applied for is urgently wanted, especially in the present period of anxiety, for the reasons explained in my letter No 148 dated 28th October 1896, and I beg that you will be so good as to obtain Sanction thereto at your earliest Convenience.
